

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	
Project Name	Comprehensive Analysis and Dietary Strategies with Tableau: A College Food Choices Case Study
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & Idea Prioritization

Project:
Comprehensive Analysis and Dietary Strategies with Tableau: A College Food Choices Case Study

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

 **10 minutes** to prepare

 **Team:** 4–6 members

 **Target Users:** College Students, Cafeteria Managers, Nutritionists, University Stakeholders

1

Before you collaborate

A little silent preparation goes a long way! Write down your thoughts and ideas about the project. Here's what you need to do to get going.

 **10 minutes**

 **Team Gathering**
Collect your initial thoughts on the problem and users we are trying to understand in our project.

 **Set the Goal**
Think about the problem we're focusing on and the outcome we want to achieve.

 **List Key Focus Areas**
Identify important areas to explore in our analysis and solution.

- Dietary Habits (Breakfast, Meals, Snacking)
- Fast Food & Junk Food Consumption
- Calorie Awareness
- Stress & Comfort Eating
- Fruit & Vegetable Intake
- Exercise & Lifestyle
- Academic Performance (GPA, Focus, Energy)
- Student Demographics

 **Generate Ideas**
Jot down as many ideas as possible related to insights, visualizations, and solutions.

2

Define your problem statement

What problem are you trying to solve? Frame your problem so it's clear and specific. This will be the focus of your analysis.

 **5 minutes**

 **Problem Statement**

How might we use data to understand college students' dietary habits and lifestyle choices so that we can promote healthier eating, improve well-being, and enhance academic performance?

 **Key Rules of Brainstorming**
To get an innovative and productive session

-  Stay curious
-  Encourage wild ideas
-  Defer judgment
-  Listen to others
-  Go for volume
-  Be positive, be visual

Step-2: Brainstorm, Idea Listing and Grouping

! PROBLEMS

What are the key dietary and lifestyle challenges college students face that affect their health and academic performance?

8 Problems

Tip

List the major problems based on student surveys, interviews and data insights.

Skipping Breakfast

High Fast Food Consumption

Low Fruit & Vegetable Intake

Stress & Emotional Eating

Low Calorie Awareness

Irregular Meal Patterns

Lack of Exercise & Sedentary Lifestyle

Impact on Academic Performance

★ SOLUTIONS

How can data-driven dietary strategies and lifestyle interventions help students make healthier choices and improve their academic outcomes?

1 Solution

Tip

Propose actionable solutions based on insights from the analysis and stakeholder needs.

🧑‍🤝🧑 Data-Driven Dietary Strategies & Lifestyle Interventions

- Promote regular breakfast and balanced meals
- Increase availability of healthy food options in the cafeteria
- Raise awareness about calorie intake and nutrition
- Encourage stress management through healthy alternatives (fruits, exercise, mindfulness)
- Motivate students to adopt regular exercise and active lifestyles
- Monitor eating habits and academic performance through continuous feedback

Step-3: Idea Prioritization

3

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

⌚ 20 minutes
